

BCCA Web Administrator Report 2025-2026

The website (<https://www.buckschess.org.uk/>) has been enhanced. It is now more navigable and has further content.

It results in about ten enquiries per year and I hope that some of those have generated new club members.

Current content includes:

- News
- Bucks Clubs
- Bucks League
- Chiltern League
- Fleming Trophy
- Fred Day Cup
- Bourne End One Day Congress
- Junior Chess
- AGMs, Reports and Minutes
- Constitution
- Useful Links
- Noticeboard
- Events Calendar

There is seldom new content other than AGM reports, and results for the Fleming Trophy and Chiltern League. Once you've seen it, you're unlikely to visit the site regularly just in case there's something new, so the site is currently of most use to those who are new to the area.

Planned developments for the coming year are:

- Membership – anyone who creates an account can then be automatically notified of new content.
- Noticeboard – this is a blogging app which allows signed up users to create topical content.

The site continues to use the popular Voice Online Communities CMS (content management system). It has some irritating quirks but is widely used and it's free (as is the domain, courtesy of a former colleague).

As always, any suggestions are welcome.
